CLARE VALLEY

## *Our Vineyards*

Our vineyards, located in Leasingham and Watervale are non-irrigated, depending solely on rainfall – hence the use of the name ‘DRY LAND WINES’.

The terroir is typically rich, red loam over limestone. They yield limited quantities (ranging from 0.5 to 2.0 tonnes per acre depending on variety) of small, delicious berries which are hand picked to ensure only the premium fruit is selected to go into our winemaking process.
